## Logs and Reports For Testing(e.g Postman)

## Testing Reports

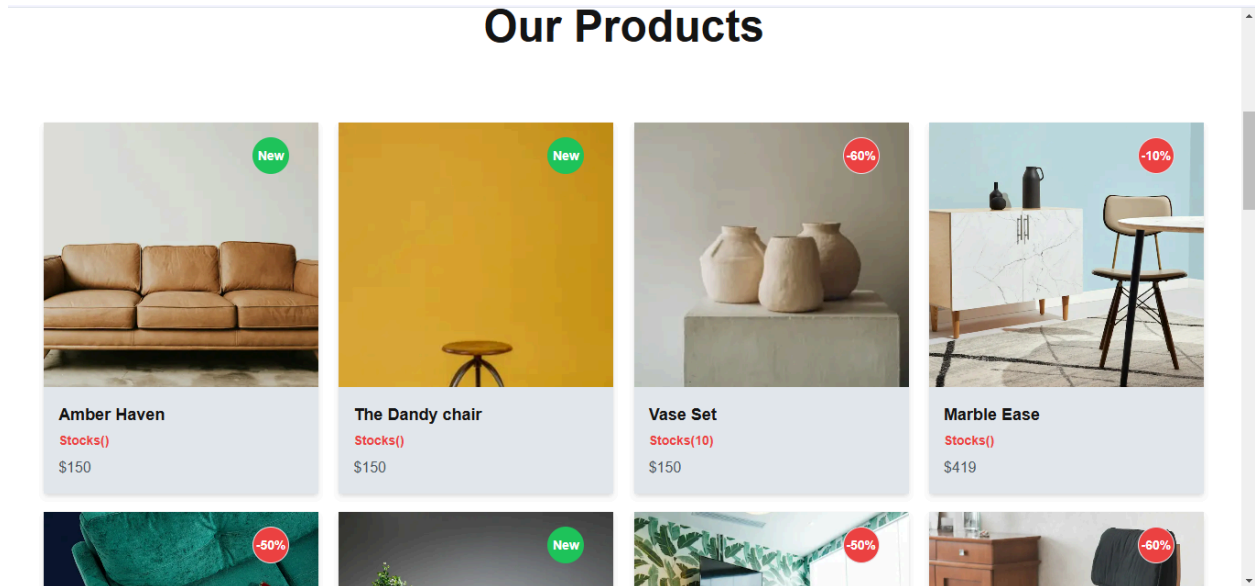

- **Test Case ID:** Unique identifier for each test case.
- **Test Case Description:** A brief description of the test case.
- **Test Steps:** Steps to execute the test.
- **Expected Result:** The result expected from the test.
- **Actual Result:** The actual observed result.
- **Status:** Status of the test (e.g., Passed, Failed).
- **Severity Level:** Importance or severity of the test case.
- **Assigned To:** Person responsible for the test.
- **Remarks:** Additional notes.

## Functionality

### 1.Product Functionality:

**Status:** Passed

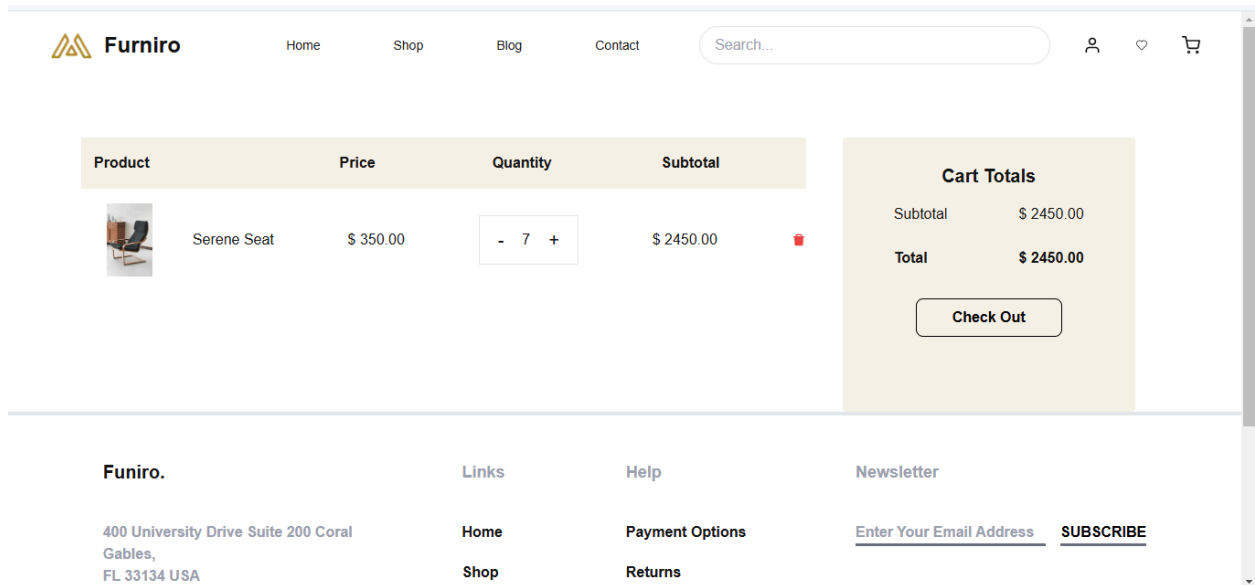

**Details:** Product data was successfully retrieved from the Sanity API and displayed on the website without issues.

## 2.Cart Functionality:

**Status:** Passed

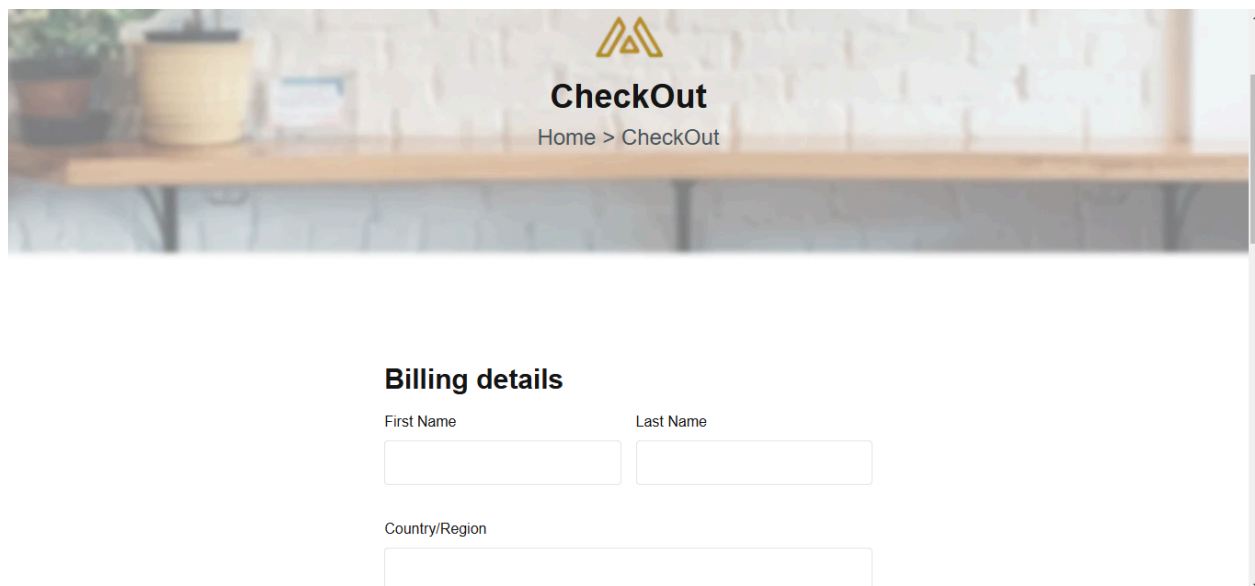

**Details:** Implemented using local storage; products are successfully added to the cart and persist between sessions.

### 3.Checkout Process:

**Status:** Failed

**Details:** Currently non-functional but under refinement

### 4. Search Functionality:

**Status:** Partial Success

**Details:** Basic search functionality works but needs improvement in accuracy.
